Love comes in many forms, not just the kind shared between parents!

Think about everyone in your life who you love: parents, brothers and sisters, grandparents, friends and pets.

Choose three people (or as many as you like), who are very important to you in your life. Inside a heart, write a Valentine's message, telling your loved one how much they mean to you and why?

E.G.

To my gorgeous Mabel dog

Some people say you're just a dog, but to me, you're MY dog. I never thought I could love an animal so much until you came along. You might not be able to speak, but somehow, you can just sense when I'm down or need cheering up and will just pad over to me for a snuggle. Without you, my life would not be as enriched!
